

A snapshot of postsecondary competency-based education students

5,052 students enrolled in the competency-based education (CBE) programs participating in the CBE Student Outcomes Research Collaborative with the American Institutes for Research.

Of those students:

Prior Credits

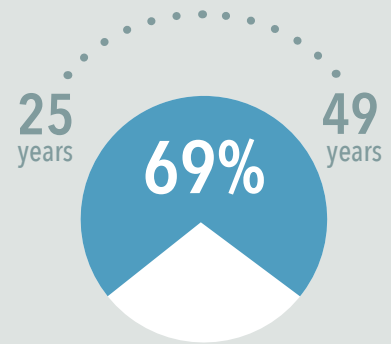

About **73%** had prior credits

Note: Some programs require prior credit to enroll.

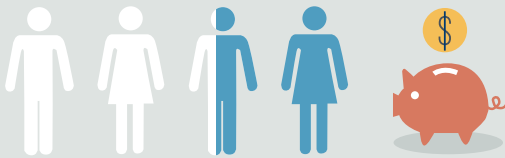

Age

69% are ages 25 to 49

Pell Eligibility

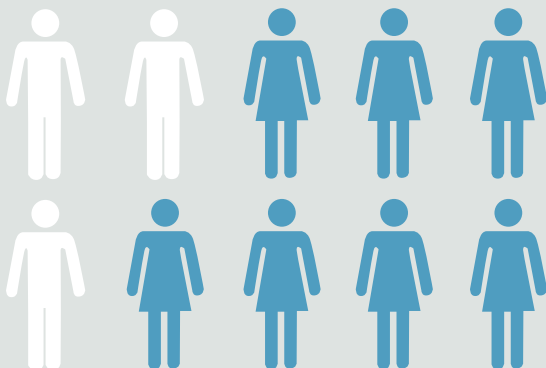

About **39%** were eligible for Pell grants

Note: Due to differences in financial aid use, the average institution-level eligibility was 30%

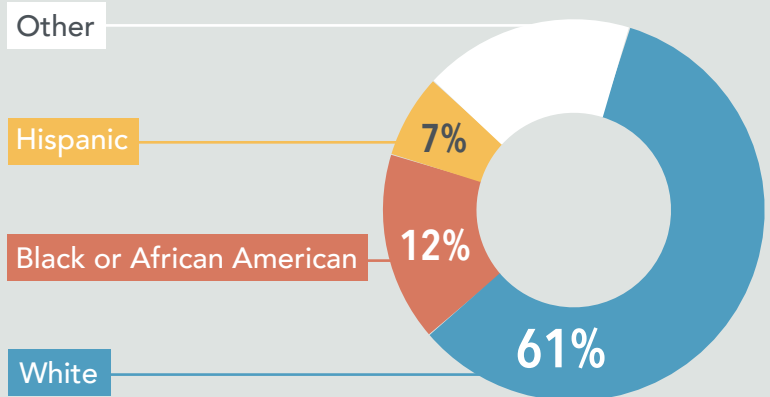

Gender

About **68%** are **female**

Race/Ethnicity

About **61%** are **white**, **12%** are **Black/African American**, and **7%** are **Hispanic**

Note:

Data reflect students enrolled in programs at 7 institutions.
